### *A designer lounge*

Starlite Marbella 2017 has relied once again on the designer Carmen Barasona. Under the creative direction of the renowned architect Héctor Ruiz, in order to decorate a lounge in the main area Starlite Welcome Desk.

Carmen Barasona creates a lounge that is in harmony with the nature of the location, thus obtaining a minimalist and inspiring environment.

The designer arranges the collection of sofa-beds CARMELA by Carmen Barasona, designed for Ecus's ICON, lights produced by the company PUJOL Iluminación and coffee tables of exclusive design.

A unique environment dominated by geometrical lines and superior, high-quality materials, with an exclusive essence typical of such a high-level event as Starlite Marbella.

Starlite Welcome Desk of Starlite.
